

James Kennedy Elementary Proud Home of the Jaguars

October 18, 2017

Attention Division 14 Parents/Guardians:

This year James Kennedy is pleased to provide students with access to the "All About Me" portfolio program from www.myBlueprint.ca. MyBlueprint is an online tool available to students from Kindergarten to Grade 12 that encourages them to visually explore their interests, abilities, passions, and goals both inside and outside of school. Our students will focus on Health and Career competencies as well as Core Competencies from the BC Curriculum. Students will explore their learning styles, preferences, career options, goal-setting, etc. These portfolios will also align with learning in other disciplines in the form of reflections, writing assignments, etc.

In school, teachers will ensure that all students understand that their "All About Me" portfolio is a tool for reflecting, showcasing their growth and achievement, and learning more about who they are and who they want to become. Teachers will assist your child in compiling materials, information, and personal reflections that will be accessible throughout their education! Many high schools in Langley use this tool for their Career and Planning course work.

****Only the student, the teacher and the parents will have access to the portfolios.****

Students may share their web-based portfolio with parents/guardians to provide opportunities to discuss and encourage reflection and inquiry about who they are. Please wait for an email which will inform you that you are ready to access your child's portfolio. For now, the children can show you what they have done so far. To access from home, simply:

1. Visit www.myBlueprint.ca/sd35
2. Enter the username: [sd35](#)
3. Enter the password: [\(Your child's PEN number which is on their report cards and glued into agendas\)](#)

I look forward to your continued support and welcome any questions you may have.

Sincerely,

Jaime Vieira
